ABOUT THE CLASSES

Ukulele and Guitar classes are a fun-filled and interactive experience, while equipping students with skills, techniques and motivation for a lifetime of musical growth and expression.

Beginner Classes focus on acquiring basic understanding of the instrument and the language of music through simple exercises and a variety of beginner level songs.

Students who have mastered the basics achieve increasing freedom to explore the songs and musical styles of their choosing, developing a repertoire and picking up additional skills and techniques along the way.

Higher level classes teach students not only how to play along with their favorite songs, but to expand creatively, developing their own sound and style, learning to improvise and compose.

MEET THE TEACHER

Tim has been teaching guitar and other instruments privately and for music studios and schools for 15 years. His goal in teaching is to inspire students with a love for music by equipping them to play the styles of music that they love.

TUITION AND MATERIALS

Classes are \$150 per semester for five sessions, due at the start of the semester.

Students should bring an instrument, picks, notebook, pen, and binder or folder for organizing materials.
